

UNIVERSITÀ DI NAPOLI
L'ORIENTALE

About the Apple Foundation Program at UniOr

The Apple Foundation Program at L'Orientale is a free, four-week program, in English and Italian, that lets you learn Swift coding and create your own app prototype, collaborating in teams in a challenge based learning environment.. The program allows learners to get highly sought-after skills in technology, design and creativity, and soft skills most valued by employers, such as problem solving, adaptability and teamwork.

If you would like to experience the Apple world and share an exciting way to enhance your abilities and help solve real life problems through your app, submit your application today!

The course is free and open to students and recent graduates (within one year from graduation) from all L'Orientale Degree/PhD Programs.

Apple Foundation Program unior web page

This is an intensive course. The morning sessions will allow you to receive instruction and guidance to help you learn by the challenge based learning method. The afternoon sessions will provide the necessary training and help you to keep track of your progress. You are allowed maximum 20% (32 hours) of absence from class, but you should aim to make the most of the course to consolidate the knowledge and skills acquired.

The course will be assessed through in-class review by the mentors and the evaluation by Apple of a collaborative prototype of an app submitted at the end of the course.

Don't miss this opportunity, we are waiting for you!
